

Call Address "Edison, New York"

*From the Laboratory
of
Thomas A. Edison,*

Camp, N.J. April 26 1914

Friend Ford

*The injurious agent in Cigarettes comes
principally from the burning paper
wrapper. The substance thereby
formed is called "Acrolein".*

*It has a violent action on the nerve
centers, producing degeneration of
the cells of the brain, which is
quite rapid among boys.*

*Unlike most narcotics this degeneration
is permanent and uncontrollable.*

*I employ no person who smokes
Cigarettes.*

Yours

Thomas Edison
